Subject: Notice of File Closure and Release of Reclamation Surety, Georgia-Pacific Corporation, Eagle Canyon Mine, M/015/050, Emery County, Utah

Dear Mr. Thompson:

The Notice of Intention to Commence Large Mining Operations for the Eagle Canyon quarry will now be closed and the file retired. The site was inspected on December 9, 2014, and it was determined that reclamation has been satisfactorily completed.

Please find enclosed the original reclamation contract for your disposal or records. Also enclosed is the surety document.

The Division hereby releases you from further reclamation responsibilities at this site. If you wish to conduct any future mining or exploration related activity in this area, you will need to submit a Notice of Intention and reclamation surety to the Division and gain approval from any other appropriate agencies.

Thank you for your cooperation in completing this reclamation work. Please contact Wayne Western at 801-538-5263 or me at 801-538-5261 if you have any questions or concerns regarding this action.

Sincerely,

  
For Paul B. Baker  
Minerals Program Manager

This Reclamation Contract (hereinafter referred to as "Contract") is entered into between G-P Gypsum Corporation the "Operator" and the Utah State Division of Oil, Gas and Mining ("Division").

WHEREAS, Operator desires to conduct mining operations under Notice of Intention (NOI) File No. M/015/050 which has been approved by the Utah State Division of Oil, Gas and Mining under the Utah Mined Land Reclamation Act, Sections 40-8-1 et seq., Utah Code Annotated, (1953, as amended) (hereinafter referred to as "Act") and implementing rules; and

WHEREAS, Operator is obligated to reclaim that area described as the Disturbed Area as set forth and in accordance with Operator's approved Reclamation Plan, and Operator is obligated to provide surety in form and amount approved by the Division, to assure reclamation of the Disturbed Area.

NOW, THEREFORE, the Division and the Operator agree as follows:

1. Operator agrees to conduct reclamation of the Disturbed Area in accordance with the Act and implementing regulations, the approved Notice of Intention and Reclamation Plan received November 19, 1990. The Notice of Intention and the Reclamation Plan, as amended, are incorporated by this reference and made a part hereof.
2. Concurrent with the execution hereof, Operator has provided surety to assure that reclamation is conducted, in form and amount acceptable to the Division. Such surety as evidenced by the Surety Contract is in the form of the surety attached hereto as Attachment B and made a part hereof. The Surety Contract shall remain in full force and effect according to its terms unless modified by the Division in writing. If the Surety Contract expressly provides for cancellation, then, within 60 days following the Division's receipt of notice that the Surety Company intends to cancel the Surety Contract, the Operator shall provide a replacement Surety Contract in a form and amount reasonably acceptable to the Division. If the Operator fails to provide an acceptable replacement Surety Contract, the Division may order the Operator to cease further mining activities and to begin immediate reclamation of the Disturbed Area.
3. Operator agrees to pay legally determined public liability and property damage claims resulting from mining to the extent provided in Section 40-8-7(1)(e) of the Act.
4. Operator agrees to perform all duties and fulfill all reclamation requirements applicable to the mine as required by the Act and implementing rules, the Notice of Intention, as amended and the Reclamation Plan, as amended.
5. The Operator's liability under this Contract shall continue in full force and effect until the Division certifies that the Operator has reclaimed the Disturbed Area in accordance with the Act and implementing rules, the Notice of Intention, as amended and the Reclamation Plan, as amended.
6. If reclamation of discrete sections of the Disturbed Area is completed to the satisfaction of the Division, and the Division finds that such sections are severable from the remainder of the Disturbed Area, Operator may request the Division to certify that Operator has reclaimed such discrete sections of the Disturbed Area in accordance with the Act and Implementing rules, the Notice of Intention, as amended and the Reclamation Plan, as amended. If the Division makes such certification, Operator may make request to the Division that the aggregate face amount of the Surety Contract provided pursuant to paragraph 2 be reduced to an amount necessary to provide for completion of the remaining reclamation. The Division shall hear Operator's request for such reduction in accordance with the Board's Procedural Rules concerning requests for Agency Action.

7. Operator agrees to indemnify and hold harmless the State, Board and the Division from any claim, demand, liability, cost, charge, suit, or obligation of whatsoever nature arising from the failure of Operator or Operator's agents and employees, or contractors to comply with this Contract.
8. Operator may, at any time, submit a request to the Division to substitute surety. The Division may approve such substitution if the substitute surety meets the requirements of the Act and the implementing rules.
9. This Contract shall be governed and construed in accordance with the laws of the State of Utah.
10. If Operator shall default in the performance of its obligations hereunder, Operator agrees to pay all costs and expenses, including reasonable attorney's fees and costs incurred by the Division and/or the Board in the enforcement of this Contract.
11. Any breach that the Division finds to be material of the provisions of this Contract by Operator may, at the discretion of the Division, result in an order to cease mining operations. After opportunity for notice and hearing, the Board of Oil, Gas and Mining may enter an order to revoke the Notice of Intention, order reclamation, or order forfeiture of the Surety Contract, or take such other action as is authorized by law.
12. In the event of forfeiture of the Surety Contract, Operator shall be liable for any additional costs in excess of the surety amount which are required to comply with this Contract. Any excess monies resulting from forfeiture of the Surety Contract, upon completion of reclamation and compliance with this Contract, shall be returned to the rightful claimant.
13. This Contract including the Notice of Intention, as amended and the Reclamation Plan, as amended, represents the entire agreement of the parties involved, and any modification must be approved in writing by the parties involved.
14. Each signatory below represents that he/she is authorized to execute this Contract on behalf of the named party.

THE MINED LAND RECLAMATION ACT

SURETY BOND  
\*\*\*\*\*

The undersigned Georgia-Pacific Corporation as Principal,  
and The Aetna Casualty and Surety Company as Surety, hereby jointly and severally  
bind ourselves, our heirs, administrators, executors, successors and assigns unto the State of  
Utah, Division of Oil, Gas and Mining, and Bureau of Land Management  
in the penal sum of --Fifty-Thousand and 00/100----- dollars (\$ 50,000.00-----).

Principal has estimated in the Mining and Reclamation Plan approved by the  
Division of Oil, Gas and Mining on the 24th day of September, 1994, that 34  
acres of land will be disturbed by this mining operation in the State of Utah.

A description of the disturbed land is attached as "Attachment A" to the  
Reclamation Contract of which this document is an integral part.

The condition of this obligation is that if the Division determines that Principal has  
satisfactorily reclaimed the disturbed lands in accordance with the approved Mining and  
Reclamation Plan and has faithfully performed all requirements of the Mined Land Reclamation  
Act, and complied with the Rules and Regulations adopted in accordance therewith, then this  
obligation shall be void; otherwise it shall remain in full force and effect.

If the Mining and Reclamation Plan provides for periodic partial reclamation of the  
disturbed lands, and if the lands are reclaimed in accordance with such Plan, Act and  
regulations, then Principal may apply for a reduction in the amount of this Surety Bond.

In the converse, if the Mining and Reclamation Plan provides for a gradual increase in the area disturbed or the extent of disturbance, then, the Division may require that the amount of this Surety Bond be increased, with the written approval of the Surety.

This bond may be canceled by the Surety after ninety (90) days following receipt by the Division and Principal of written notice of such cancellation. Surety's liability shall then, at the expiration of said ninety (90) days, cease and terminate except that Surety will remain fully liable for all reclamation obligations of the Principal incurred prior to the date of termination.

Principal and Surety and their successors and assigns agree to guarantee said obligation and to indemnify, defend, and hold harmless the Division from any and all expenses (including attorney fees) which the Division may sustain in the collection of sums due hereunder.

Surety will give prompt notice to Principal and to the Division of the filing of any petition or the commencement of any proceeding relating to the bankruptcy, insolvency, reorganization, or adjustment of the debts of Surety, or alleging any violation or regulatory requirements which could result in suspension or revocation of the Surety's license to do business.

IN WITNESS WHEREOF, the Principal and Surety hereunto set their signatures and seals as of the dates set forth below.

Permit Term: Life of Mine

Life of Mine: 20 years

### (June 1997 Amendment)

Legal Description: SE/4, SE/4, Section 24, and NE/4, NE/4, Section 25, Township 22 South, Range 8 East; SW/4, SW/4, Section 19, and NW/4, NW/4, Section 30, Township 22 South, Range 9 East, SLBM, Emery County, Utah; June 1997 Amendment areas A and B located within: SW/4 SW/4 Section 19 and NW/4 SW/4 Section 19, Township 22 South Range 9 East, Emery County, Utah..

Mineral(s) to be Mined: Gypsum

Mining Methods: Drilling and blasting of a quarry approximately 20 feet deep.

Acres to be Disturbed: approximately 25.5 acres existing, @9 acres new (areas a & b), total 34.5 acres

Present Land Use: Intermittent livestock grazing, wildlife habitat

Postmining Land Use: Intermittent livestock grazing, wildlife habitat

Variances from Reclamation Standards (Rule R647) Granted: None requested

### Soils and Geology:

Soil Description: Upper one or two inches are cryptogamic soils. One to two feet of topsoil exists above the overburden.

pH: 8

Special Handling Problems: None

Geology Description: The gypsum units found on the property are found in the upper portion of the Jurassic Carmel formation. The formation strikes northeast and dips gently northwest at an angle slightly greater than topography.

### Hydrology:

Ground Water Description: Depth to groundwater unknown. Quarry will be shallow and groundwater impacts are not anticipated.

**Surface Water Description:** Area is drained by small ephemeral washes. A major dry wash is adjacent to proposed quarry area. Georgia Pacific will mitigate any impacted washes.

**Water Monitoring Plan:** Sediment basins and retention barriers are to be constructed to retain soils within the project area.

**Ecology:**

**Vegetation Type(s); Dominant Species:** Indian Rice grass, Shadscale, Crested Wheat grass

**Percent Surrounding Vegetative Cover:** 20% - 25%

**Wildlife Concerns:** None

**Surface Facilities:** Mine access road, storage area for equipment, and storage area for explosives.

**Mining and Reclamation Plan Summary:** . . . .

**During Operations:**

1. Existing cryptogamic soils, topsoil and overburden will be stripped and stockpiled.
2. The gypsum deposit will be drilled and blasted.
3. Ore will be loaded onto trucks and hauled to the Georgia Pacific processing plant in Sigurd, Utah.

**After Operations:**

1. All mining-related equipment, structures and trash will be removed from the site.
2. Quarried areas will be regraded to slopes no steeper than 3h:1v.
3. The regraded areas will be covered sequentially with stockpiled subsoil, topsoil, and cryptogamic soils, respectively.
4. Roads and pads will be ripped and regraded where appropriate.
5. Reclaimed areas will be seeded with an approved seed mixture.

**Surety:**

**Amount:** \$73,000

**Form:** Joint Agency Surety bond (DOGM-BLM) increased by rider

**Renewable Term:** 5 years (year 2002 dollars)

RE: MERGER OF GEORGIA-PACIFIC CORPORATION AND KOCH FOREST  
PRODUCTS INC. / PERMITS NUMBER M41009; M150050; & M150072

Dear Executive Director,

On December 23, 2005, Koch Forest Products, Inc. (KFP), a wholly-owned subsidiary of Koch Industries, Incorporated, completed its purchase of the outstanding shares of Georgia Pacific Corporation (Georgia-Pacific). KFP and Georgia Pacific have now merged, with Georgia Pacific as the surviving entity. Prior to this transaction Georgia-Pacific was a publicly held corporation. With the completion of this transaction Georgia-Pacific is now a privately held, wholly owned subsidiary of Koch Industries, Incorporated.

We are writing to inform you of the completion of this transaction and to advise that the direct ownership of our facility by Georgia-Pacific is unchanged by this transaction, and that we intend to continue operating under the name listed on our environmental permit(s). As such, we do not believe it is necessary to modify or change the permit(s) listed above for our facility. Should you believe otherwise, please let us know, and also consider this a request to appropriately change our permits.

We appreciate the good working relationship we have enjoyed over the years and look forward to continuing that relationship in the future. If you have any questions, please contact me at 435-896-0381.

Sincerely,

Ronald Hix  
Plant Manager

**RE: Authorization for the release of the Reclamation Surety for Georgia Pacific's Eagle Canyon Gypsum Mine Project; T. 22 S., R. 8 E., Section 24**

Dear Mr. Baker:

The Bureau of Land Management (BLM) recently reviewed the reclamation efforts for Georgia Pacific's Eagle Canyon Gypsum Mine as part of its annual review protocol and has concluded that the recontouring has been accomplished. Furthermore, during the inspection conducted September 13, 2010 it was concluded that revegetation is not greater than the required 75% basal cover; consequently, we cannot recommend the full release of the reclamation surety, but only that which covers the recontouring of approximately 26 acres. Our records indicate that the bond currently held by the Utah Division of Oil, Gas, and Mining (UDOGM) is in the amount of \$157,700, and we recommend withholding approximately \$1000/acre for reseeded. Therefore, we recommend withholding \$30,000 for potential revegetation efforts and releasing \$127,000 to Georgia Pacific.

As detailed above, the BLM approves the release of \$127,000 for the Georgia Pacific's Eagle Canyon Mine. If you have any questions or comments please contact Chris Conrad at (435) 636-3667.

## Recommendation

The Permittee requested that the \$122,000.00 Letter of Credit be transferred to the Georgia-Pacific Gypsum Mine (M/041/0009) but did not request a bond release. The Georgia-Pacific Gypsum Mine currently has a Board Contract instead of a bond. The Division decided to proceed with the partial bond release in order to transfer the Letter of Credit to the Georgia-Pacific Gypsum Mine (M/041/0009).

In a letter from Jerry Kneezka of the Price office of the BLM, the BLM authorized the release of all but \$30,000 from the site.

Chris--

We currently hold a corporate surety bond for \$73,000 and a letter of credit for \$84,700 for the Eagle Canyon quarry.

Back in April, we received two modifications to the letter of credit. The first increased the amount from \$84,700 to \$122,000, and the second changed the permit number from M/015/050 to M/041/009. M/015/050 is Eagle Canyon and M/041/009 is their quarry near Siggard.

Although they went about this the wrong way, I would like to allow them to make these changes on the condition that they apply for and receive partial release of the bond for Eagle Canyon. Even if the letter of credit is applied to the Siggard quarry, we still have the corporate surety bond for \$73,000 which should be plenty for revegetation of Eagle Canyon.

The quarry near Siggard currently has a Board contract, i.e. a self bond or a corporate guarantee, and I would like to get rid of this. The amount is \$122,000--exactly how they changed the Eagle Canyon LOC.

We won't authorize the release until Georgia Pacific makes a formal application and we receive an authorization letter from you, but I plan to proceed with approval conditional on partial release.

Subject: Bond Modification Accepted With Conditions, Georgia-Pacific LLC, Eagle Canyon and Georgia-Pacific Gypsum Mines, M/015/0050 and M/041/0009, Emery and Sevier Counties, Utah

Dear Mr. or Ms. Wall:

On April 5, 2010, the Division of Oil, Gas and Mining (Division) received an amendment to letter of credit 3056710 increasing the amount by \$37,300.00 from \$84,700.00 to \$122,000.00, and on April 26, 2010, the Division received another amendment changing the permit number on this letter of credit from M/015/050 to M/041/009.

The Division approves this change with the following condition:

Prior to giving final approval to the change in surety amount for the Eagle Canyon quarry, you must receive approval for the change through the bond release process. No later than October 1, 2010, please make application for release of grading requirements and associated surety for the Eagle Canyon quarry.

The Division and the Bureau of Land Management (BLM) will need to evaluate whether grading is adequate before releasing a portion of the surety for the Eagle Canyon quarry. A portion of the surety will need to be retained until revegetation has been successful.

The form with which to apply for partial release of the reclamation surety is on the Division's web page at [https://fs.ogm.utah.gov/pub/mines/minerals\\_related/forms/MR-SITE.pdf](https://fs.ogm.utah.gov/pub/mines/minerals_related/forms/MR-SITE.pdf).

The Division will neither reject nor accept the changes to the letter of credit at this time, so we are not returning a copy signed as either accepted or rejected. We would like to accept the changes. If the changes are accepted, you would be able to apply to the Board of Oil, Gas and Mining for full release of the Self Bonding and Indemnity Agreement with the Board.

If you do not make application for partial release of the surety for Eagle Canyon, or if the BLM or Division determines that reclamation is not adequate, the Division will reject the proposed changes in the letter of credit.

Please let me know if you have questions about this letter or the surety release process. I can be reached at 801-538-5261 or by e mail at [paulbaker@utah.gov](mailto:paulbaker@utah.gov). Thank you for your cooperation.

Dear Paul:

Per our recent phone conversation and your subsequent request, please find attached a copy of the Amendment to Irrevocable Standby Letter of Credit ("LOC") No. 3056710, representing financial assurance for the operation located at the above-referenced facility. This amendment reflects the correct permit number. All other information remains the same. As usual, Bank of America automatically forwarded the original amended instrument to your attention. This package is simply a courtesy copy for your files. The facility is also in receipt of a copy of the amended LOC, and is maintaining that copy on file in case of inspection.

**\*\*URGENT – ACTION REQUIRED!\*\***

This amendment represents a language change to the LOC. Consequently, please sign the amendment tracer, indicating your acceptance of the information described therein, and return it to the bank. If this last step is not completed, the bank will not consider the instrument processed, and the amendment will not take effect.

If you have any questions or comments regarding this subject, please do not hesitate to contact me. Thank you for your prompt attention to this matter.

Sincerely,

Dear Ms. Rosales:

On March 30, 2009, the Division of Oil, Gas and Mining (Division) received an amendment to the referenced letter of credit changing the permit number from M/015/050 to M/041/009. The Division rejects this change. The letter of credit is being held for reclamation of the Eagle Canyon quarry whose permit number is M/015/050 (also M0150050). The Division would need to authorize any change.

We are attempting to contact Georgia Pacific Gypsum to determine why they may have requested the modification.

RE: Amendment to Letter of Credit, Georgia Pacific Gypsum, Eagle Canyon Mine, M/015/050, Emery County, Utah

On March 25, 2003, the Division issued a Notice of Noncompliance to Georgia Pacific for exceeding their permitted and bonded area. One of the mitigation requirements was to post an additional \$84,700.00 reclamation surety and revise their Large Mining plan.

On June 17, 2003, we received a Letter of Credit # ~~3056710~~ issued by Bank of America for the required \$84,700. A replacement Reclamation Contract was also received. The Division accepted the RC and the LOC.

It was later discovered that the Bureau of Land Management should have been included in the Letter of Credit. Therefore, on July 28, 2003, we received the enclosed amendment to the LOC which adds the Bureau of Land Management to the LOC.

The bank is requesting that we accept or refuse the amendment by signing and dating the document and returning it to them. If you are in agreement with accepting the LOC as amended, please sign and date the document as indicated. We will then forward a signed copy of the bank for their records.

Thank you for your consideration of this request.

RE: Request for Approval of Form and Amount of Replacement Reclamation Surety, Georgia Pacific Corporation, Eagle Canyon Mine, M/015/050, Emery County, Utah

On June 17, 2003, the Division received a joint Letter of Credit in the amount of \$84,700 from Georgia-Pacific Corporation for their Eagle Canyon Mine in Emery County. This Letter of Credit, issued by Bank of America, combined with the existing surety raises the reclamation bond for this site to a total of \$157,700. The bond was increased partly as a result of the routine five-year review and partly as a result of a Notice of Noncompliance where the operator was cited for disturbing a larger area than authorized. The operator has submitted an amendment to its Notice of Intention to Commence Large Mining Operations, and the Division is prepared to issue final approval for this amendment.

The operator also provided the Division with a replacement reclamation contract to reflect the increased disturbance area and bond. If you are in agreement with the acceptance of the revised reclamation surety and replacement reclamation contract, please sign and date the reclamation contract. We will then issue final Division approval for the amendment allowing for expansion of the mine. Thank you for your consideration of this request.
